Digging Deeper

1. What is the difference between the quiet of eastern mysticism and the silence of biblical Christianity?

2. What lessons should we learn about silence from Proverbs 10:19?

3. Scripture calls us to be silent, but Scripture also offers us models like Psalm 55 to help us express our complaints to God. What determines whether silence or pouring out our hearts is more appropriate?

4. How does Deuteronomy 27:9 suggest a connection between grace and silence?

5. Job 40 is not the first time that the book addresses silence. Using a concordance (or a Bible app), chart the flow of "silence" throughout the book of Job. How does this connect to Job's words in Job 40?
